March 8, 2019

Dear Mayor and Council,

The Central Saanich Community Association is very pleased to see that the establishment of a car sharing opportunity in Central Saanich is a Council priority. As advocated for previously, we are in full support of seeing Modo Car Share come to our municipality.

It is our hope that council will support a partnership with Modo for introduction in 2019. There have already been 106 Modo car share units purchased by developers for residents of our municipality. It would be a great addition to have Modo available for those members, as well as others, here in Central Saanich. We also feel it would be worthwhile to include a truck as part of the available fleet. Living in a rural area where most properties have large yards, a truck would be a very valuable addition to help with numerous jobs, like moving debris, yard scrapes, bringing in landscaping materials, etc. Having a truck available in the community may encourage homeowners to purchase individual memberships. Having an electric vehicle as part of the fleet, as suggested, would also be a valuable addition.

Thank you for all your work in making car sharing opportunities available for our region and we are happy to work with you to further support this initiative.

Sincerely,

Celeste Zimmer  
Chairperson  
Central Saanich Community Association.
